ORDER:

In the reference read above, the Engineer –in- Chief (I) Hyderabad has reported that the Chief Engineer, Godavari Delta System,Dowlaiswaram has informed that during the recent floods of 2013 to river Godavari, which was fourth successive flood, ranging up to 21.18 lakh cusecs of discharge was passed through the river due to which critical situation was faced as the flood banks are weak at certain vulnerable places, posing severe flooding. After noticing the situation, temporary protection works were instantaneously taken up by the flood duty staff due to which the public and their properties could be saved from danger especially at Vivekananda Varadhi (Bridge), situated at GRB which was found to be most vulnerable because a pier of Vivekananda varadhi was constructed directly on the flood bank itself due to which the ground around the pier become weak and the water around the pier was continuously seeping out to the rear side and the soil particles are also being subjected to rapid erosion which may fail ultimately.As the nearby habitants were alarmed due to threat of breaching of flood bank, the Collector, East Godavari District who inspected the site during floods had instructed the field staff to take up the stabilization of the protection works to mitigate the hardships of villages and safe guard the properties from any further floods.

2. In the circumstances reported by the Engineer-in-Chief(I), Hyderabad, Government after careful examination hereby accord the Administrative Approval for the proposals of the Engineer-in-Chief (Irrigation), Hyderabad for Protecting the eroded and slipped River margin by constructing the Groynes and providing Pitching and Revetment in between Km. 54.000 to 54.800 of G.R.B Flood bank in Pallavaripalem village limits of mummidivaram Mandal and in between km 31.800 to 32.400 of P.I.P. flood bank in Kesanakurru village limits of I.Polavaram Mandal. for Rs. 49,65,00,000/- (Rupees Forty Nine Crores Sixty five Lakhs Only).

3. The expenditure sanctioned in para (2) above, shall be debited to the Head of Account "4711-01 Flood Control – MH 103 – GH 11 – SH – 530 /531 OE".

4. The Engineer-in-Chief (Irrigation), Hyderabad is requested to take necessary action accordingly.

Contd...2/-

4. This order issues with the concurrence of Finance (Expr-PW.1) Dept vide their U.O.No.29963-13/727/Exp.PW-1/13 Dated: 03-12-2013.
